THE REAL ISSUE.

The fact that NICOLL is a Democrat. and is supported by thousands of the best Democrats in the city, is enough to prove that the contest over the District-Attorneyship is not a political one.

Every intelligent citizen knows that politics is not involved, except as politicians assume to dictate to the people who they shall not have in an office charged with no political responsibility ; but intrusted with thel prosecution of public offenders. To lug the "tariff," or the "National Treasury," or the "National Democracy" into this fight for honest local government, is to attempt to throw sand in the eyes of the people.

The sole question is, shall New York approve or condemn the vigorous prosecution of bribe-givers or bribe-takers? If the people permit a party appeal to range them on the side of the Boodlers, they deserve to be plundered.

ABOUT OVER.

The Flopper has very wisely abandoned its own word-eating share in the District-Attorney contest, saying: "That campaign is

Servants are expected to sneeze when their masters take snuff. But have the people nothing to say in the matter? Because office-holding candidates

look to a party machine to secure for them delegates for a renomination, shall the voters of New York therefore elect an unfit man as District-Attorney? The managers of the political machines know that they must work together or be smashed separately. Therefore they "indorse" each other. The question before the voters is: Shall

the machines rule or the people govern? The answer has been furnished by Mr. HEWITT: "Smash the machines!"

THE "FRIEND" OF TWEED. FELLOWS as an explainer: "Mr. Tween was an old friend of mine and had helped me

out before. He lent me the money because he was a friend of mine, that is all." And "that" is enough. It is more than

enough to conclusively demonstrate Fri-Lows's unfitness for any public office. The "friend" of Tween is the friend of

the Boodlers to-day. The leopard has not changed his spots.

Do the People want the money-soliciting "friend" of Twend for District-Attorney?

FIGHTING THE OLD FIGHT.

Behind Fellows with sinister leer looms the shade of Boss Tweep.

Behind NICOLL stands TILDEN "in the columns of reform and good government."

The old fight is on. As before some honest but mistaken men are ranged on the wrong side through the force of party slavery, but, as before, they will live to regret it.

As before, the old cry of "abuse" is raised. But, as before, it is the "abuse" of scandalous and admitted facts.

As before, the substantial issue is between good government and bad government, between machine rule and the rule of the peo-

PECKHAM AND OLNEY.

The two able lawyers, honest men and stanch Democrats whom Gov. CLEVELAND appointed District-Attorney over Assistant FELLOWS'S head-WHEELER H. PECKHAM and PETER B. OLNEY-are both warm supporters of Mr. NICOLL.

Both these gentlemen know the requirements and the temptations of the District-Attorney's office. Both know NICOLL and FEL-Lows well. Both are disinterestedly seeking the welfare of the city and the honor of the Democratic party. Both, therefore, were amazed and indignant at the knifing of NICOLL and the preferment of FELLOWS by the County Democracy Bosses. And both stand upon their convictions of duty instead

injure himself by his stultifying intermeddling in this local contest.

SAVE BROADWAY.

Wake up, gentlemen, if you want to save Broadway from disfigurement by an "L" system. In Judge Dononur's eleventh-hour appointment of a commission to estimate the amount of compensation due the city the Metropolitan Transit Company has taken what may prove to be a big stride towards the gobbling of our magnificent thoroughfare.

But opposition to this and similar schemes can be permanently effective only when supplemented with some more acceptable plan. The alternative to the sacrifice of Broadway is the speedy construction of an underground or viaduct road. The consensus of expert opinion favors the former.

Then hurry up the underground road, and save Broadway.

IT IS NOT TOO LATE.

"Oh! it's too late," is the chorus from Power, FITZGERALD and the other officeholders touching the fatal disclosures of the pecuniary relations of Ferrows and Boss

It is not too late. This serious charge, backed by documentary evidence, is produced four days before election, in a short campaign. FELLows himself admits that he borrowed the money of Tween.

Fortunately it is not too late for the citizens of New York to say in the light of these undisputed facts whether they want Tween's "friend" in the District-Attorney's chair.

It is never too late before the ballots are east to vally to the support of good govern-

THE REAL REASON.

PETER B. OLNEY, the able lawyer and sound Democrat whom Gov. CLEVELAND appointed to be District-Attorney over the head of Assistant JOHN R. FRILOWS, certifies to Mr. NICOLL's superior fitness for the office.

The Tween check and the "welcher's" plea render further argument on this point needless. But Mr. OLMEY also says that he has yet to see stated any good or substantial reason why Mr. Nicoll should not have received the nomination of the United Democracy." Mr. OLNEY has not seen it because there was and is no such reason.

The real reason was because Boss Power would not permit it. And he would not permit it because NICOLL had "made New York too hot for Boodlers." The election will make the city at once too hot for Boodlers and too cold for Bosses.

Very young children and very old fools speak the truth. Ananias blurted out the truth when he confessed that his abandonment of Nicoll "relates to THE WORLD itself." And the cause of this hatred is the decline of the Sun from 140,000 circulation a day to a figure that it stopped printing and dare not give, while THE WORLD increased from 15,000 to 273,000 a day. But should this fact deprive the honest people of New York of the District-Attorney of their choice?

Among the explanations of Col. Fellows which do not explain is his endeavor to answer the charge of "welching" by the statement that he afterwards " settled " the claim. But the fact remains that he gambled, lost and pleaded "the baby act." He says he had reason to think he was defranded But this does not appear in his plea as defendant. New York will set no gambler to the prosecution of gamblers.

It must add to President CLEVELAND's personal satisfaction" in indorsing FEL-Lows to find himself at last cheek by jowl with the ionrnalistic "ghoul" who has be spattered him with filth and pursued the ladies of his family with malignant slurs for the past three years.

You are right, Mr. CLEVELAND. The people of New York are "quite competent to manage their affairs." If they were not, they would hardly take your advice to elect a man whom you have five times refused to appoint or nominate.

Fellows to Tweed: "Excuse this seeming persistence." The corrupt Boss excused it, but the People will not.

If the Anarchists have any hopes of pardon, let them ask for mercy. Justice has already spoken.

"BILLY" MOLONEY sat by the side of FEL. Lows at the Tween trial. He is with him in spirit now.

The election will keep New York " too hot for Boodlers," and make it too cold for Bosses.

Is it probable that Fellows, as he claims, repaid this money the next week? The city is strew; with his protested paper and unsettled accounts. Tweed was the most accommodating of creditors. TO MUCH DUTY ON SULLIVAN'S BELT.

R Would Cost John \$600 to Take the En blem Into Great Britain.

[SPECIAL TO THE EVENING WORLD] Boston, Nov. 5 .- There is every prospect that the gold and diamond belt, emblematic of the world's pugilistic championship, which was presented to Champion Sullivan in this city last August, will not be admitted into oil and water. They are both nice fellows, too, but with a difference. Edgerton is an old-style gentleman. He believes in the principles of Andrew Jackson's Democracy, and he is proud of having called upon Andrew Jackson before he went West to make his fortune. He is honest to the core, and he cails a spade a spade. He was a great friend of Tilden's, and he and Tom Hendricks slept for a time in the same political bed. There is no more courtly man in public life than Edgerton, and there is no man of his age in the country who has more activity and vim. He is as straight as a Norwegian pine and he wears a straight stove-pipe hat and a great old-fashioned stock which makes him look even more perpendicular than he is. He does not like the iconoclastic tendencies of modern politics any more than he does of modern deseas, and his beaver is of the same style as that which prevailed when Frank Pierce was President and Edgerton was a young member of Congress. He is a rich man and politics as a money-making profession is nothing to him. He owns valuable lands in the oil and gas regions of Northwestern Ohio and he has stock and bonds galore. Oberly, on the other hand, is as a visitor said of his host's wine, "Poor, but honest." He has been an editor, a member of the lilinois Legislature and a political writer. He is a man of considerable sbillty and of an immense amount of good-fellowship. was sent Heraid to the yesterday.

LONDON, Nov. 4, 1887.

To the Editor of the Heraid:

The editor of the London Sportsman, soting under the request of the American correspondent of that paper, has requested the Comptroller of Customs to pass the Sullivan beit, emblematic of the championship of the world, free of all duty. After consideration, the Comptroller of Customs has stated that he will demand a duty of 17 shillings for every ounce the belt weighs. Much indignation is expressed by all the sporting men of this country at the comptroller's action, and if he insists that a duty must be paid on the belt that valuable trophy will be returned immediately to Boston by the steamer Cephalonia, which sails in a week.

The gold in the Sullivan belt weighs 3,000 cwt., or aboutone hundred and fifty ounces. Beside this there is some weight in the few less than a hundred diamonds with which the belt is set. If the Comptroller of Customs insists on collecting the duty Champion Sullivan would be obliged to pay no less than \$600 for the privilege of taking his belt into England. This duty seems an unreasonable one and will never be paid.

The terms under which he received it com-pel him to keep it in his possession while alive. At his death it falls to his heir, and it never can be disposed of while he has a rela-tive living. This being the case, it would seem that the British authorities are not jus-tified in imposing any duty whatever on the championship emblem.

FLINT GLASS-WORKERS ANGRY.

They Say They Will Give the Manufacturer a Good Fight in Case of a Strike.

[SPECIAL TO THE EVENING WORLD.] Prersaung, Nov. 5 .- The trouble between the flint glass manufacturers and their emovees is just now developing into an opcombat. The fact is the Western Pennsyl-

combat. The fact is the Western Pennsylvania manufacturers have been East and arranged with Eastern manufacturers to join them in a strike has incensed the workers in and about Pittsburg to a great extent.

An official of the Flint Workers' Union spoke freely about probable results. He said: "The manufacturers have undoubtedly done an unwise thing in going to New York and showing their hand. Until they declared their intentions we did not know they desired a strike. Now that they have made hnown what they mean, the whole thing is clear. If the manufacturers are prepared for a strike so are we. The members of our union generally are men who earn high wages, and therefore are prepared to remain idle several months without assistance. One thing is sure, and that is, the manufacturers must either pay the gatherers what we demand or there will be a strike." It is more than two hundred years since the brave old director died, and the landmarks of the Knickerbockers have one by one crumbled into dust. There are fine specimens of Dutch architecture about the city, and especially on Long Island, still but the quaint, low-browed mansions in Fistbush and scattered on the outskirts of Brooklyn antedate the revolution but little. The Suydam house on Evergreen avenue, Brooklyn, has been carefully maintained in its original shape, and the door-posts show bullet holes from the guns of Brittish troopers.

A manufacturer said : "Of course we have A manufacturer said: "Of course we have been reaping good profits and we can let things stand as long as the workmen can, and, in fact, much longer. If all the works are shut down the supply will drop off, and then prices will go up alarmingly. This will be to our advantage, so that we have nothing to lose. If the Eastern manufacturers say they will shut down if a strike occurs in the West, depend upon it they will do it, and that will defeat the union."

There is scarcely a noted statesman, a renowned general or an actress or singer of any fame who has appeared upon the public stage in the past fifty years whose features have not been registered on Brady's camera, and he was for vears the court photographer at Washington.

I met him in Williard's Hotel last night. A straight, well-made man of about medium height, he has a face which reminds you much of that of Louis Napoleon. His hair is thick and bushy. It is combed well up from the forehead, and, like his ferce moustache and imperial, it is iron gray. It is combed well up from the forehead, and, like his fierce moustache and imperial, it is iron gray. He has bright blue eyes, and these smiled through blue spectacles last night as he told me how he succeeded in getting Jenny Lind's picture. Said he: "All the dazuerrectypers of New York were anxious to get Jenny Lind, and all schemed for weeks before her coming to obtain the first picture. P. T. Barnum was opposed to me, and he did all he could to have her go elsewhere. I secured, however, the assistance of the Swedish Consul, who was a friend of mine, and through him obtained the sitting. We commenced arranging for it before Jenny Lind landed, and we got here a day or so after her arrival in New York. My daguerrectype gallery was then on the corner of Fulton and Nassau streets, and the word had gotten out that I was to take her picture. A great crowd was gathered around the entrance to the gallery, and it blocked up the street for a full square. She came in a carriage, and was very kind in allowing me a number of sittings. I took all sorts of views, about a dozen in all, and when we were through I slipped her out through a back door into an alley, and she thus got away and avoided the crowd. She was not a beautiful woman, but her face was a pleasant one. It was of the Swedish order, square and red, and her eyes were beautiful. She had a glint of gold in her hair under the camera, and she took an excellent picture." in his countenance, and his tired eyes gave evidence of the large amount of work that he has so vigorously and so earnestly performed has so vigorously and so carnestly performed during the past five or six weeks. He was more confident than ever of success.

"I am even more hopeful of victory than I have been at any time since the campaign begun," he said to an Evening World reporter. PLANS OF BOOTH AND BARRETT.

They Will Have a Theatre in New York Similar to Irving's Lyceum in London.

[SPECIAL TO THE EVENING WORLD.] St. Louis, Nov. 5 .- The Booth-Barrett com bination is playing this week to enormous receipts at the Olympic Theatre in this city. THE EVENING WORLD correspondent met Mr. Barrett last evening and in the course of s chat on his present tour he narrated to some extent the plans of the two tragedians for the

After speaking of the wonderful success of the tour and the universal kindness with which the enterprise had been met, Mr. Bar-

rett said:

"This is only the beginning of something greater. It would be impossible now that we have commenced for either Mr. Booth or myself to draw out, and the probability is that the relation which is existing between us will be continued for the rest of our natural lives, until one of us is gone. The relationship is pleasant and profitable to both of us, and it is fitting that we should go on. We entered on our careers at nearly the same period and have worked together. Our aspirations and sympathies are similar. To Mr. Booth is due in a large measure the first brilliant production and the presentation of the legitimate drama. Much of my own of the legitimate drama. Much of my own inspirations I owe to him. We shall continue together, therefore, and I look upon this as the commencement of a great work for both of us. We shall devote ourselves to the highest production and best from the drama, and in production and the company aim to give the Shakespearian and other classical plays as pear perfection as can be attained."

plays as near perfection as can be attained."

From an intimate friend of the tragedian, it was learned that their plan includes securing a theatre in New York which shall be to the metropolis what the Irving Lyceum is to London. It will be devoted to legitimate London. It will be devoted to legitimate productions, and the stars will manage it and devote themselves mainly to it, only making occasional tours. Manager Chase is now looking for a theatre in New York. In case one cannot be secured, a new one will be built within two years.

RESEMBLES A SEA SERPENT.

A Peculiar Species of Fish Brought Into th Port of Gloucester.

[SPECIAL TO THE EVENING WORLD.] GLOUCESTER, Mass., Nov. 5.—The schoone M. A. Baston, Capt. Thomas Thompson brought in a very peculiar species of fish, caught on the La Havetiank, and which resembles the pictures and descriptions of a sea serpent more than anything yet brought into Gloucester.

Nothing of the kind has ever been seen by

the fishermen or experts in the matter of rare

fish.

It answers no published description in works devoted to the subject. It is four feet in length and about five inches through, has one long dorsal fin extending the whole length of the back. The head is triangular-shaped, the lower jaw extending two inches beyond the upper jaw and terminating in a soft extremity. Both jaws are armed with very sharp teeth, resembling those of a porpoise.

The upper jaw has three long prongs at the extreme tip. The rest of the upper teeth are very fine and small. It is packed in ice at the rooms of the American Fish Bureau, and will be forwarded to the Smithsonian Institution at Washington.

AN ASYLUM FOR CRIMINALS.

Quebec Authorities Giving Up the Fight with the Province of Ontario.

[SPECIAL TO THE EVENING WORLD. MONTREAL, Nov. 5 .- The relations between the legal tribunals of Ontario and Quebec are becoming more strained every day. The celebrated Shepherd case, which formed a precedent for not indorsing McGarigle's arrest, and has since been used in the Bethune case, seems to have clogged up the wheels of justice so badly that the Quebec authorities are giving the matter up and letting the province of Ontario constitute itself as an asylum for criminals from this Province.

Yesterday morning Crown Prosecutor Greenshields formally withdrew his application for a warrant for the arrest of Kribs, who was Shepherd's factotum in the celebrated libel on the Sixty-fifth Regiment during the Riel rebellion.

Kribs's case, although dropped for the present, will probably come up again after the special act of Parliament is passed. precedent for not indorsing McGarigle's ar-

tree on this occasion, she was too enthusiastic, for the two real apples fell to the ground, though Miss Dillon did not notice that. Thomas Gossman, the property man, standing at the wings, saw the mishap, but would do nothing. When the cue came for Miss Dillon to snatch an apple and take a big bite from it, she seized one of the property apples, which are made of thin painted papier maché filled with sawdust. Miss Dillon did not look at it, but took the hog bite, penetrating to the sawdust, which fell over the front of her dress. She made a wry face and the audience tittered. Miss Dillon was furious, as she is extremely fond of this scene and practiced climbing up the tree for a long time before the production of the piece. But her cup of anguish was not yet full. Thomas Gossman was in a funny mood. When Miss Dillon came off the stage he informed her that the paint on the property apples was deadly poison. Even Manager Frohman could not resist the temptation of teasing the poor little lady. He declared he would send for a doctor, and announced that Miss Dillon's underlady should be held in readiness. When the actress was on the verge of hysterics, the gentlemen condesendingly informed her that they were only joking. "Oh, I knew it." she said, fibbing gently, "But even if the apple had been poison, I'd have eaten it rather than miss that scene. Dillon was furious, as she is extremely fond

Henry E. Abbey has made arrangements to bring the entire Meiningen Company to this country next year. It will be remembered that a year ago an effort was made to secure this attraction for the United States by a syndicate represented by Wesley Sisson. Sufficient money was advanced to that gentleman to permit of him to go to Europe to treat with the company. He was unable to make arrangements with them, owing to some financial difficulties. The subscription which was being made here did not promise very satisfactory results. This is an important undertaking for Mr. Abbey. He will import an entire shipload of scenery and properties. The Meiningen Company will open in New York at the Star Theatre, and play in the principal cities only. This enterprise, with Mary Anderson and Coquelin, also in the United States, and Pati and Bernhardt abroad, will give Mr. Abbey plenty of work. plenty of work.

Miss Seligman, who has been engaged to play the part of Ustane in "She," is related to the wealthy Seligmans of this city, and the announcement of her engagement has caused much talk. For the last two years she has been making an effort to appear in public. Miss Seligman appeared in a performance of "Iolanthe," given for charitable purposes at the Academy of Music sometime ago, and she has been very persistent in her attempts to secure an engagement. Ustane in "She" is the young girl who falls in love with Leo and who is wedded to him by a kiss, according to the custom of the Amhaggers.
